The GRUB Live ISO Multiboot project offers a variety of menu entries for different Linux distributions.. The 0 means the first hard disk, while the 1 means the first partition on it In other words, in a GRUB device name, the disk numbers start counting at 0 and the partition numbers start counting at 1 yes, its unnecessarily confusing.. For example, (hd3,6) refers to the sixth partition on the fourth hard disk For example, below we can see the system partition is dev/sda1 so thats (hd0,1) for GRUB.. In the Nautilus file manager, right-click the ISO file and select Open with Archive Manager. [Руководство По Ремонту И Эксплуатации Мопеда Симсон Гл Р](#)
